

Nuvolo Connected Workplace for Government, Built on NOW™

Customer Results:

65%

increase in issues reported via the employee self-service portal.

20,000

technician hours saved by fixing issues faster after initial reporting.

42,000+

facilities assets tracked across nine regional areas.

50 hours

per month saved investigating equipment performance for compliance auditing.

Leverage your existing ServiceNow investment to manage Facilities, Space, and Assets.

Nuvolo Connected Workplace is the only integrated workplace management system (IWMS) natively Built on NOW™. Leverage ServiceNow's modern SaaS IT infrastructure already deployed in many government IT operations.

Nuvolo is a Gold Technology Partner of ServiceNow and largest ISV on the ServiceNow store.

Consolidate all processes related to Facilities, Space, Capital Projects, Real Estate, Sustainability and seamlessly integrate with your HR, Finance, and IT work order systems - resulting in a total, single platform solution.

“With Nuvolo, we can now monitor all the labor spent performing CM and PM work orders. Plus, we will finally have an accurate inventory for all our assets including their service history and performance failures.”

Director of Service Management, NOAA

Nuvolo's Built on NOW™ strategy provides proven availability, security, flexibility, and performance.

Natively built, not an integration - adding Nuvolo is the same as adding HR or Sec Ops

Nuvolo and ServiceNow take security seriously. We are a Certified ServiceNow App and operate 100% within the ServiceNow platform, which is **FedRamp, FISMA, and ICD 503 compliant.**

Other Key Advantages:

- Existing ServiceNow security certifications extend to the Nuvolo solution, the path to implementation in classified environments is assured.
- Replace dozens of facilities and workplace management applications with ONE single system of record and engagement.
- Extend the same exceptional service management practices to your real estate mission.
- Effortless integrations with ERP applications, like SAP, Lawson, PeopleSoft, etc.

We're driving digital transformation and meeting the unique mission and security constraints of our customers.

Nuvolo Connected Workplace is trusted by government agencies across the nation, along with an impressive list of financial, corporate, and healthcare organizations.

Here are just some of our distinguished public sector customers:

Department of Defense (DISA, DTRA, DCSA), Department of Treasury, USAID, Department of Commerce, Department of Health and Human Services, NYC Department of Transportation, and County of Fairfax Virginia.

All with their own specialized mission-critical needs and security considerations.

About Nuvolo

Nuvolo is the global leader in modern, cloud-based Connected Workplace solutions. Nuvolo provides a single platform to manage all people, all physical locations, all assets, and all work – enabling data sharing across departments.
